the house they live in

Would you like to buy your Housing New Zealand house?

The government is offering state house tenants the option to buy the house they are living in. The dream of home ownership may be yours, without even having to call the movers. If you are not interested in buying your house, don't worry, you can continue to rent off us. You are under no obligation to buy.

Is your property eligible?

Housing New Zealand Corporation won't be selling all of its properties. You'll need to contact us to check that your house is available. To find out if your house is available for sale call 0508 935 266 any time.

How much will your house cost?

If your house is available for sale, the price will be determined by a market valuation of the property, carried out by a registered valuer. This will happen once the sale process has begun. We can provide you with an indication of the possible purchase price, but be aware this is only a guide and a market valuation still needs to be done by a registered valuer.

The next step is to go to a lender to find out the maximum amount you can borrow and get written pre-approval for that amount. Supply this along with evidence of deposit, to Housing New Zealand. Alternatively you can supply any other proof of finance, you may have acquired.

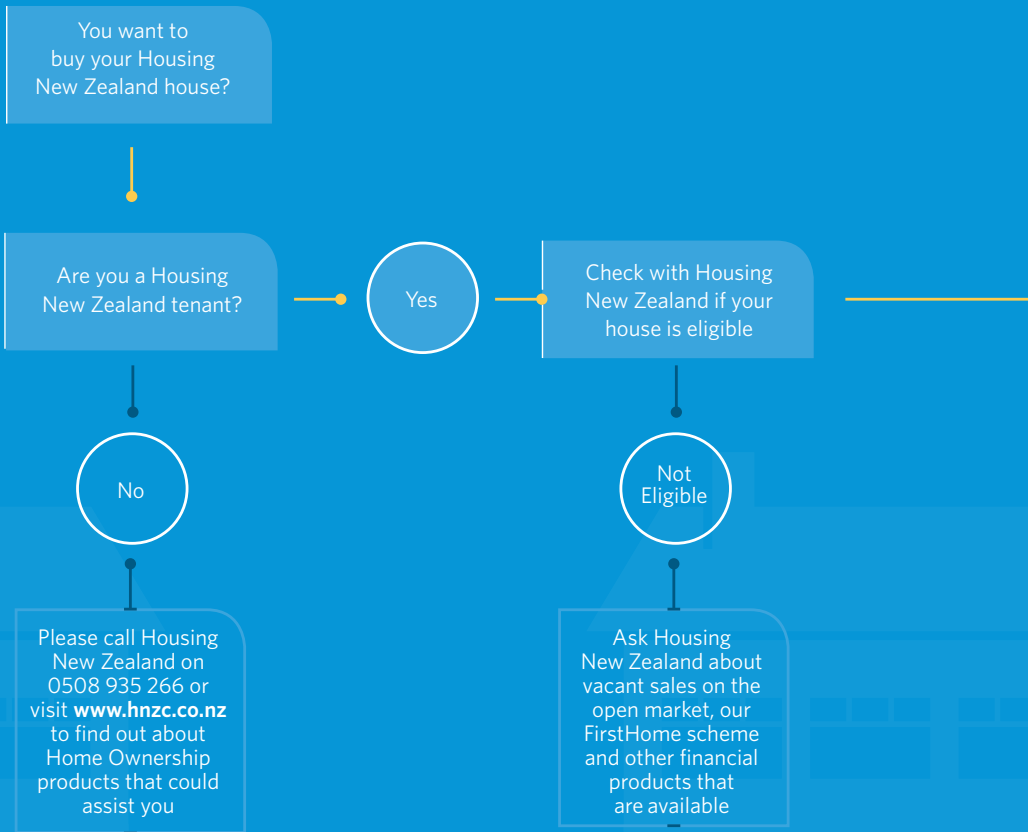

Introducing the FirstHome grant

FirstHome is a scheme that offers a grant of 10% of the purchase price of selected Housing New Zealand houses up to a maximum of \$20,000. From 1 December 2015 tenants wishing to buy the house they live in become eligible to apply for this grant. The FirstHome grant is not available in areas where there is high demand for state houses. These areas include Auckland, Wellington City, Christchurch, Hamilton and Tauranga.
